Summary

Computer Science graduate with a strong foundation in gameplay systems, puzzle mechanics, and rapid prototyping. Experienced with Unity, Godot, and custom APIs, with shipped contributions to Apple Arcade titles. Skilled at combining technical implementation with narrative and design to create engaging player experiences.

Work Experience

University of Toronto Jan 2023 – Dec 2024

- **Planning Analytics Assistant (Jan 2023 – Apr 2024):** Refactored legacy code pipelines and built data extraction/analysis tools for the Office of Planning & Budget, improving reporting efficiency.
- **Project Management Assistant (Sep 2024 – Dec 2024):** Supported enterprise teams in the Enterprise Applications and Solutions Integration department by preparing briefs, reports, and Gantt charts, coordinating stakeholders to align deliverables and schedules.

Game Design Intern, Mighty Bear Games Jul 2020 - Jun 2021

- **Butter Royale (Apple Arcade):** Conducted playtesting, player support, and designed quality-of-life features that improved retention
- **Disney Melee Mania (Apple Arcade)**: Designed combat abilities for Disney heroes and prototyped a power-up system during early development.

Projects

Mirror's Memento Itch Page

Puzzle game about defeating a mirroring doppelganger. Implemented Unity puzzle systems (switches, conveyors, room rotation) and a BFS-driven hint system.

Anamnesis (Develop at Ubisoft 2024–25) Itch Page

2D puzzle-platformer where each death spawns a replaying ghost. Built all core systems in 72h using Ubisoft's minimalist API.

Golfers of the Galaxy (Ubisoft NEXT 2025) Itch Page

2D physics-based minigolf with rotating planets and gravity fields. Implemented gameplay systems and designed complex levels in 72h using Ubisoft's minimalist API.

Webster Booster (GMTK Game Jam 2025) Itch Page

Arcade action game about a jet-propelled spider chasing bugs. Implemented VFX, fuel system, and interactive menu in Unity within 96 hours.

The Doughfather (Brackeys Game Jam 2025.2) Itch Page

Cookie-themed pachinko game about paying debts to the "Doughfather". Led narrative design and integrated art/game juice systems in Godot during a 7-day jam.

Education

2021 - 2025 HBSc in Computer Science at the **University of Toronto** (GPA: 3.9/4.0)
(High Distinction, Dean's List 2021-25)

Skills

Programming	C++, C#, Python, Java, JavaScript
Engines/Tools	Unity, Unreal Engine, Godot, React, Git
Specialties	Gameplay systems, puzzle mechanics, AI, physics simulation, narrative integration, prototyping
